

What climate impacts concern/threaten our community most?

What opportunities do we have for taking action?

What knowledge do we need/what do we want to learn more about?

Where are we most vulnerable?

Which options are the community most interested in/excited by?

What are our triggers for taking action?

What existing resources can our community draw upon?

What are our priority actions?

- 1:**

- 3:**
- 4:**
- 5:**

**Where is action
needed?**

When to take action?

**Who will make up the
project team?**

**What resources do
we already have/
can obtain?**

Who to partner with?

**What knowledge and
resources do we need?**

**How will we fund
this project?**
